Overview of Units of Measure Preferences

Last Modified on 09/14/2023 4:58 pm EDT

This guide provides an overview of the Units of Measure tab in System Preferences. It is intended for system administrators.

The Units of Measure conversion feature allows aACE to convert specific measurements distinctive to your business. This feature is not enabled by default.

Working with various units of measure can be complicated. If this feature will benefit your business, please consult your aACE representative for more information and guidance.

Note: You must click Edit to update any of these settings and preferences.
