

# Overview of Order Items

Last Modified on 11/15/2023 2:08 pm EST

This guide provides an overview of the Order Items module. It is intended for general users.

When an order is created with line item codes (LICs) attached to it, aACE records all the LICs within the order in the Order Items module. You can view important details about the order items, such as their ship date, order, customer, quantities, total, and status (i.e. open, pending, and closed). This can help you analyze sales history.

To access the Order Items module, navigate from Main Menu > Order Management > Details > > Order Items. This module only has a [list view](https://aace6.knowledgeowl.com/help/overview-of-the-list-view) (<https://aace6.knowledgeowl.com/help/overview-of-the-list-view>).

Code	Description	Ship Date	Order	Customer	Qty	Act Qty	Rem Qty	Total	Status
> L-ASMBLY	Assembly	07/26/23	> 50704	Douglas Fairbanks	1	0	1	143.75	OPEN
