

Overview of Order Procurement

Last Modified on 11/15/2023 2:09 pm EST

This guide provides an overview of the Order Procurement module. It is intended for general users.

The Order Procurement module shows you line item codes (LICs) on order that need to be procured, as well as important order procurement details. Items included in this module are all order-specific and do not include [backorders](https://aace6.knowledgeowl.com/help/understanding-backorder-management). Navigate from Main Menu > Order Management > Details > Order Procurement.
