

Overview of Task Group Items

Last Modified on 11/15/2023 2:11 pm EST

This guide provides an overview of the Task Group Items module. It is intended for general users.

Task groups (<https://aace6.knowledgeowl.com/help/overview-of-task-groups>) organize a set of **tasks** (<https://aace6.knowledgeowl.com/help/overview-of-tasks>) (i.e. labor-type line item codes) for your standardized workflows. When you add tasks to a task group, aACE compiles a list of the tasks. You can create and review all these LICs, organized by task group, in the Task Group Items module.

Navigate from Main Menu > Order Setup > Details > > Task Group Items. This module only has a **list view** (<https://aace6.knowledgeowl.com/help/overview-of-the-list-view>).
